This is the contents of the envelop, it is dated 21 Jan 1922 which appears to be 5 sheets of stamps being sent to George Kay on Approval. George made remarks at the top right regarding buying some stamps, and also towards the bottom referring to where he says he will keep a different net amount and is returning the remainder (which is his response cover here). Emory Renoll was a US stamp dealer.

Was George Kay a member of the CPS in 1922 or later?
