

THE POSTCARD FACTORY® CARDS OF THE RCMP

Since 2004 The Postcard Factory® has produced two cards picturing the RCMP. The picture side has remained the same. The address side has seen many changes. The Post Office's Security Printer (now Lowe Martin) printed the stamp. It is uncertain if they have printed all the stamps.

There have been many changes in the underlay, the format of the card number, the black box at the lower left, the Logo and the addition of the SKU (Stocking Keeping Unit.)

We show the known varieties of stamps and the address printing on both the RCMP cards over the life of these cards.
